Septic System/malfunctioning Alteration Waiver Request – Block: 5 Lot: 72 432 Bellis Road, Milford, NJ  
Mr. Parker was representing Kurt Hoffman on a septic system waiver request, showed plans to correct a malfunctioning system with no expansion. The design is in full conformance with 7:9A except the proposed disposal bed will be only 79 feet from the existing well, which does not meet the minimum 100 foot setback requirement by code. This will be a gravity system with a new septic tank. As per 7:9A-4.3 the distance can be reduced to 50 feet provided there is 50 feet of casing in the well. The engineer provided a document from Clinton Well & Pump Service, dated June 13, 2019 showing there is 34 feet of casing in the well. He is proposing an ultra violet (UV) treatment on the well with a passing coliform test from a NJ certified laboratory provided to the Hunterdon County Board of Health.

After discussion, Christopher Balogh made a motion to grant the waiver for Block 5, Lot 72 for the distance of the well to the proposed disposal bed, with the stipulation that a water test must be taken and a UV system be installed. A roll call vote was taken. Lisa Mickey, aye; Donna Lizanich, aye; Pearl Hammerstone, aye; Audrey Balogh, aye; Christopher Balogh, aye; Tony Szumski, aye; and Jeff Waldron, aye. It was a unanimous aye vote to grant this waiver.
